**NOTICE TO TAYLORCRAFT OWNERS
from Harvey Patrick, Managing Member
TAYLORCRAFT 2000 LLC**

I have had D&E Aircraft management on-site at the Brownsville operation for several weeks while we entertained offers to purchase or refinance Taylorcraft Aviation, LLC and regretfully we did not succeed and were forced to repossess all assets of Taylorcraft Aviation, LLC on February 21, 2008.

My team worked with the FAA MIDO and Engineering offices to finalize approval of the new lift strut design and processes; these were verbally approved on February 29, 2008. We expect written approval this week.

D&E purchased materials and hired Taylorcraft's employees and a DAR to build 13 lift-strut sets which will be available for purchase from D&E Aircraft upon receipt of written approval from the FAA.

I regret that we cannot fulfill orders accepted by Taylorcraft Aviation, LLC prior to my repossession of the assets.

D&E Aircraft will relocate the Taylorcraft 2000, LLC assets to their facility in Lake Worth, Florida and will operate a PMA facility to supply parts to support the fleet until we can find a purchaser or gather the necessary management team to operate Taylorcraft 2000, LLC.

Sincerely,

Harvey O. Patrick
Managing Member
Taylorcraft 2000, LLC

TAYLORCRAFT ASSETS FOR SALE

Type Design Original Documentation, FAA Type Certificate A-696 This TC Covers Models, BC, BCS, BC-65, BCS-65, BC12-65, BCS12-65, BC12-D, BCS12-D, BC12-D1, BCS12-D1, BC12D-85, BCS12D-85, BC12D-4-85 AND BCS12D-4-85.
